INSURANCE OFFICES

Highly Important to Farmers.
The only Exclusive Farmers' Insurance Company in the West.
THE MADISON MUTUAL,
Located at Madison, Wisconsin.
THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings, of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible Companies.
All losses promptly paid at the office as soon as proof is made thereof.
We believe it to be for the interest of the farming community by themselves, their property being less hazardous than any other, consequently you will have no losses, and your own of the same class, and all will be on an equal footing.
Experience has shown that two-thirds if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected POSITIVELY by LETTING THEM ALONE.
Farmers, look to your own interest, and insure in a Farmers' Company.
We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss*, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.
The best of references given as to the responsibility of the Company.

MILWAUKEE MUTUAL
FIRE INSURANCE COMPANY.
Office in Martin's Block, Milwaukee.
Capital over $165,000—in Cash and Premium Notes.
THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2500 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

DR. J. B. MARCHISI'S
CELEBRATED CATHOLICON,
For the Relief and Cure of Suffering Females.

IT STANDS PREEMINENT for its curative powers in all the disease for which it is recommended usually called
Female Complaints.
Of these are Prolapsus Uteri, or Falling of the Womb; Fluor Albus, or Whites; Chronic Inflammation, and Ulceration of the Womb; Incidental Hemorrhage, or Flooding; Painful, suppressed and irregular Menstruation, &c., with all their accompanying evils, (Cancer excepted,) no matter how severe or how long standing.
The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in a better condition.
I have no hesitation in saying Dr. Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty.
JOHN C. ORRICK, M. D.,
Baltimore, Md.
The Catholicon is doing good service here. All the patients that have tried the medicine have been benefitted but one—and that one nothing will help.
Truly Yours,
WM. LAIRD HAZLETT, M. D.,
July 6th, 1854. New Philadelphia, Ohio.
I must say, from my own experience and personal observations in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended, viz: that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the female organs.
D. Y. FOOTE, M. D.,
Syracuse, N. Y.
Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2500 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. DR. J. B. MARCHISI'S CELEBRATED CATHOLICON, For the Relief and Cure of Suffering Females

IT STANDS PREEMINENT for its curative powers in all the diseases for which it is recommended usually called

Female Complaints

Of these are Prolapsus Uteri, or Falling of the Womb, Fluor Albus, or Whites,—Chronic Inflammation and Ulceration of the Womb, Incidental Hemorrhage or Flooding, Painful Suppressed and Irregular Menstruation &c, with all their accompanying evils, (Cancer excepted) no matter how severe or how long standing

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in a better condition

I have no hesitation in saying Dr Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty JOHN C ORRICK, M. D., Baltimore Md

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefitted but one—and that one nothing will help

Truly Yours,
WM LAIRD HAZLETT, M D
July 6th, 1854 New Philadelphia, Ohio

I must say, from my own experience and personal observations in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended, viz that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the female organs

D Y FOOTE, M. D., Syracuse N Y

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use, together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations

☞ This being New Year's Day and of right a holiday, no paper will be issued from the Sentinel office to-morrow morning. Should any important news be received, however, it will be published, as usual, in an extra.

The New Year.

With this morning's light, another Year dawns upon the world. That which died, so gently and peacefully last night, was one of strange and eventful incident. It has been a year of disasters by flood and field; of destructive fires and devastating shipwrecks; of scanty crops, parching drought and wasting disease; of heavy failures and more disheartening frauds in business and commercial circles; of great stringency and general embarrassment in monetary affairs; and of wars and rumors of wars throughout the European Continent. Yet to us and ours, it has brought in its course, far more of good than of evil, and furnished fresh cause of gratitude to the Great Being, whose power created and whose wisdom governs the world.

The pestilence which walketh at noon-day and has wasted other lands, passed us lightly by. While elsewhere untimely frosts, or rains long-continued, or a parched soil, stinted the fruits of the earth, here the labor of the husbandman have been crowned with abundant harvests. The reverses of business and the revulsions in the money market, which struck down so many victims in other cities, touched but few here. We have not indeed escaped unscathed from the swoop of the Fire King; but the visitation was a partial one, and already stately stores have sprung from the black and smoking ruins. Above all, while War has reared his horrid crest and shown his bloodiest front on the classic shores of the Crimea, and the three greatest Powers of Europe, are engaged in doubtful and deadly strife, Peace has been in all our borders and under her benign sway, Agriculture has flourished, Industry pursued its accustomed labors, and Commerce, borne on the wings of the wind, visited, unchecked and unmolested the remotest regions of the earth.

Thus kindly has the Year that is past dealt with our favored land. What may be in store for us, as for other countries, in the Year upon whose threshold we stand to-day, is hidden by Time's mysterious curtain. But that is a true philosophy which says, "Look not mournfully upon the Past, it is gone—Wisely improve the Present, it is thine—Go forth to meet the shadowy Future, without fear and with a manly heart." To that Future, let us turn with Hope. May it come full-freighted with blessings to our beloved country, bringing with it success for our Commercial operations, encouragement and employment for all the varied forms of Industry, and onward and upward progress in Education, Virtue and Religion. May Peace still bless us with her smile, Prosperity gladden, but not harden our hearts, and Health dwell in all our households. And may we never cease to remember the lesson which this hallowed season emphatically teaches, "Glory to God and good will to man."

Friends and Patrons of the SENTINEL! You who have journeyed with us hopefully and confidently in the Past—you whose generous patronage has lightened all our labors—you with whom we hold daily converse, and to whom, as we fain would hope, the face of the Sentinel is as familiar and as welcome as that of an old and tried friend—you with whom we, to-day, for the eleventh time exchange the cordial greetings of the season—how can we better show our grateful appreciation of all your kindness, than by invoking heaven's choicest blessings upon you and yours, and tendering to each and all, from our inmost heart, the wish of "A HAPPY NEW YEAR!"

HOLIDAY ADVERTS.—In the crowded state of our columns this morning, we cannot find space for the usual article, calling attention to advertisements of our merchants of their Holiday stock. Their advertisements, however, speak for themselves, and a perusal of them by all who are in search of the proper material for Gifts for the holidays, will be an accurate result in finding out the best place in which to purchase. We have grouped together the advertisements intended especially for the season, but others scattered through the paper ought to be examined.

U. S. District Court.

The U. S. District Court, Judge MILLER presiding, commences its January term this day. The session derives peculiar interest from the fact that JOHN RYCRAFT is to be sentenced and S. M. BOOTH to be tried, for participating in the rescue of the alleged Fugitive Slave Glover from the custody of the U. S. Marshal. The Grand Jurors are summoned for this morning, at 10 o'clock, and the Petit Jurors for to-morrow—We presume, therefore, that Mr. Booth's trial will commence to-morrow. We shall endeavor to keep the readers of the Sentinel fully advised of the proceedings of the Court and the progress of this trial from day to day.

WATERTOWN RAILROAD.—We learn that this Company intend to run henceforward two passenger trains each way per day, leaving here at 10 A. M. and 5 50 P. M, and Oconomowoc at 7 A M and 3 P M. The arrangement will be such as to enable travelers from Oconomowoc, in both morning and evening trains, to connect with the trains going west on the M & M R R. It will greatly facilitate travel between Watertown and this city, which has thus far been rather hindered than helped by the railroad.

We are glad to learn that the receipts of this road are very well and are confident that they will run up to a high figure in a few weeks.

OSHKOSH CITY BANK.—The Wisconsin reports Comptroller DENNIS as saying that at the present market value of the stocks deposited by Oshkosh City Bank, its outstanding notes are worth 75 cents on the dollar; and that the proceeds of these stocks and of the personal bond of Messrs. Cleveland, Hall & Kenning will enable him to redeem the outstanding circulation, dollar for dollar. Such is not the opinion of the Banks and bankers in this city. They do not regard the Oshkosh money as worth over 90 cents on the dollar, but if the New York money market and stocks continue to rise, the securities (North Carolina, Virginia and Missouri State Stocks) will doubtless reach par again, and make the notes worth their face. Had the owners of the Oshkosh City Bank complied with the requirements of the Comptroller, and deposited the 10 per cent additional security, demanded by that officer, to make up for the depreciation of State Stocks, the other banks would have continued to receive its notes at par, even after it had closed its doors. Such we learn, will be the course adopted to any other State Banks that may be forced to suspend payment: In every case where security has been deposited with the Comptroller, as called for by him, the notes of the suspended Bank will be received by all the other Banks at par. But where this has not been done, the notes will be refused.

New York Money Market.

The Tribune of Tuesday says that the favorable character of the foreign news, assisted by the large arrival of gold by the George Law, gave quite an impetus to business in the fore part of the week. In Railroad Bonds the transactions were $270,000 at improving prices. Ill. Central advanced to [illegible], an improvement of 1 ₱ cent, Erie Incomes advanced 1¼ ₱ cent, selling at [illegible] at 80; Harlem 1st Mortgages, [illegible] &c. State Stocks are improving, though still in good supply, advanced [illegible] 6's, 97.

GERMAN CONSUL FOR THE WESTERN STATES.—We copied on Saturday a paragraph from the Chicago Democrat to the effect that FRANCIS A HOFFMAN, of that city, had been appointed German Consul for the Western States, to reside at Chicago. To prevent any misapprehension, it seems proper to add that Mr. C. H. H. PAPENDIEK, of this city, has held for some years and still holds a similar appointment for the States of Wisconsin, Illinois, Indiana, Michigan and Iowa, and the Territory of Minnesota.

DEATH OF PROMINENT MEN—Ex Governor MOREHEAD, of Kentucky, a man of mark and influence, died at Frankfort, after a long illness, on Friday last. CORNELIUS DARRAGH, a prominent lawyer and politician, died at Pittsburgh on Thursday, after few day's illness.

THE CHILD OF TWO MOTHERS.—Judge SMITH, of our State Supreme Court, who issued the writ of Habeas Corpus, in the case of the boy, claimed by the Partridge family, and also by an Indian woman of the Menomonee tribe, and who was recently brought back from Illinois by Mr. HUEBSCHMAN, Superintendent of Indian affairs, after hearing the statements of the parties on Saturday,—made an order directing the child to be placed in custody of the Sheriff till the first Tuesday of March, when the case will be heard and decided.

☞ We learn from the Chicago Dem. Press that the Hon E. Estabrook, formerly Att'y General of this State and now U S Dist Attorney for Nebraska, passed through Chicago, Thursday, on his way to assume the duties of his new station.

Nebraska Election.

The Council Bluffs Bugle of the 15th inst. contains partial returns of the election in the Territory of Nebraska, held on the 12th inst, from which we infer the election of N. B. Giddings to Congress, over H. D. Johnston. Hon. B. B. Chapman, who had been a candidate, withdrew from the canvass, leaving the field to the two gentlemen named above. The vote as far as reported, stands as follows:

	Giddings.	Johnson.
Omaha District,	6	190
Belleview,	66	—
Winter Quarters,	16	13
Burt County,	—	24
Plattsmouth,	111	3
Cass County,	111	3
Total,	310	233

The Bugle expresses its confidence in the election of Giddings. We believe Giddings is known as a Benton Democrat. Johnson is the old Delegate from Nebraska.

The following are the legislative returns as far as known;

For Councilmen in Douglas Co.—Rogers, Jones, Richardson and Goodwill were elected.

For Representatives.—Byers, Davidson, Davis, Clancy, Hanscom Goyer, Poppleton, and Whitted, were elected.

For Councilman from Washington Co.—J. C. Mitchel.

For Representatives.—B. Winchester and A. J. Smith.

For Burt Co.—Councilman, B. R Folsom.

For Representatives.—H. C. Purple, J. D. Robertson.

ERIE CITY BANK, PENNSYLVANIA.—We have received the following communication from Messrs. S. C. HALL & Co, Whitewater, in reference to a paragraph in Friday's Sentinel, to the effect that rumors unfavorable to the Erie City Bank, were in circulation in our city and that some of the Banks refused its notes:

WHITEWATER, Dec. 9th, 1854.

Messrs. Editors:

We noticed a paragraph in your paper of this morning, calculated to discredit the Erie City Bank, Pa. We have paid out in this place about ten thousand dollars of the circulation of this Bank and have done so, knowing it to be good and safe, and the Bank prepared to redeem its circulation when presented at its counter.

Yours, Respectfully,
S. C. HALL & CO.

EASTERN WHEAT-BUYERS AT CHICAGO.—The Chicago Tribune of Friday notices a sale of 8,000 bushels of wheat to go to Pittsburg, Penn, and a few lots to Vermont, for milling. The Tribune adds that there are several Eastern buyers in that market, for millers in Michigan, New York, Pennsylvania and the Eastern States, and that the demand for and price of wheat are increasing. Buyers can find a good opening in this market. There is plenty of wheat in the hands of our farmers, ready to come in, and the receipts here will increase rapidly as the market improves—as improve it must.

MISTAKE.—The Chicago Press corrects the statement of one or two of its contemporaries, to the effect that Mr. Tinkham had resigned as Cashier of the Marine Bank on account of ill health. The Press says that Mr. Tinkham's health is quite precarious, but that he has not yet found it necessary to relinquish his post,

PROSPECTS OF THE WAR.—The London Times, commenting upon the recent offer of Russia to re-open negotiations for Peace, on the basis of the "Four Points," very sharply says:

> It cannot for a moment be supposed that the Allied Powers will consent to desist from the vast enterprise in which they are engaged upon any terms short of the surrender and demolition of Sebastopol, for till that has been accomplished nothing has been done for the permanent settlement of these momentous questions; and we must also be in condition to require that no such armaments and fortifications shall again menace the inland shores of the Turkish dominions.
>
> For these reasons we belive that war on a more extended scale, and not peace, will arise out of the present conjuncture of affairs.

Missouri Legislature.

The legislature of Missouri convened in Jefferson City on Christmas Day. In the Senate, J. A. Holliday, Anti-Benton, was elected Secretary; M. V. Harrison, Benton, Sergeant-at-Arms; H. H. Barber, Whig, Engrossing Clerk, and P. Pipkin, Know Nothing, Enrolling Clerk—an equitable division of "the spoils." In the House on the first day, there was no choice of officers. Whigs, Bentonites and Anti-Benton men sticking to their respective candidates. The Whig members held a caucus the same evening and resolved to make opposition to Slavery Agitation and support of the Nebraska iniquity a sine qua non in the selection of Speaker and U S Senator. The result of this movement was a coalition, on the following day, between the Whigs and Benton men, whereby Newland, whig, was elected Speaker, Kelly, Benton, Speaker pro tem; Love, Benton, Clerk, and Wallace and Collier, Whigs, assistant clerks. This result is also thought to indicate the election of Col. BENTON to the U. S. Senate, in place of Mr. ATCHISON, which would certainly be a great change for the better.

CHURCH DEDICATION AT OAK GROVE.—The Congregational Church at Oak Grove, Dodge County, is to be consecrated on Wednesday next, January 3d. A Fair was to be given by the ladies of Oak Grove and surrounding country, the proceeds to be given to the Church.

The Great Storm in the Black Sea!

From a Private Correspondent of the London Times.
Her Majesty's Ship ——, off the Katcha, Nov 15

Thank God, my dear——, I am alive, and able to give you an account of the horrors I have witnessed and escaped during the last two days. On Tuesday we expected every moment to be either drowned or taken prisoners, such was the fury of the gale we have just experienced. The oldest sailors say they have never been in such danger,—not only was there the fearful gale to dread; but a lee shore within a mile and a quarter of us, and some 50 sail of all sorts around us. I will endeavor to give you a detailed account of it.

On Monday it blew fresh from the south-west but, as the barometer was rising and nothing indicated bad weather, we took no notice of it, especially as we all had imbibed an idea, now utterly eradicated, that is was never known to 'blow home' in the Black Sea. The flag ship, fortunately shifted her anchorage and got a good offing, but no other ship followed her example.

On Tuesday (yesterday) morning there was still a stiff breeze, with occasional squalls; still no alarm, until one of the squalls lengthened itself out—if I may so express myself—into a regular gale, and then we began to feel the unpleasantness of our situation. Immediately a second anchor was let go, and this was soon followed by our sheet anchor; still, with an enemy's shore scarcely a mile distant and breakers much nearer, it was, of course, a most anxious time.

About 10 A. M. the transport No. 20, the Ganges, began to drive—she having, I fancy, parted her cable. Right astern of her was No. 1, the Pyrenees, which she soon fouled; and a most fearful sight it was. Spars snapped like rotten sticks; jib-booms bowsprits, yards, masts, all shared the same crash; the two ships grinding together in a most awful manner. Of course No. 1 soon began to drive, as well as No. 20, and both locked together, bore down upon the poor Samson. Soon they were foul of her, and the same work of destruction began, and in ten minutes they cleared from her, and there lay the bold, defiant little Sampson, shorn of all her beauty, with not an inch of anything except her funnels standing, her masts having all gone with one awful crash and fallen inboard, so that we are most anxious, though most fearful, to hear of the damages they must have done in their fall. Her bowsprit is also gone short off. In fact, she is a complete wreck. Parting from her, No 20 brought up, and we hoped was safe, while No. 1 still drove on towards the shore, and, much as we pitied her, help was, of course utterly impossible.

While this was going on inside us, just outside us two French liners, the Jupiter and Bayard, fouled, but, fortunately, or by good management got clear, with only a slight smashing of boats and their quarters, and brought up with four anchors each. About noon the gale was at its highest, and there was then a cry that the Terrible had parted a cable, and was among the breakers. Every moment we expected she would go on shore, but soon the paddles revolved, the remaining cable was slipped, and right in the teeth of gale, steamed out the splendid Terrible. This was the most cheering sight during the whole of this eventful day, and a glorious sight it certainly was to see that steamer going through everything and proving the mighty conquest of man over the elements. Our situation all the time was most critical. Right ahead of us were four French liners, one or two of which had already driven, and if any of them parted their cable, our destruction was inevitable; and, to make it, if possible, worse, there was the knowledge that we could do nothing, but most patiently abide our lot whatever Providence thought fit for that to be. We had done our all—the result was in God's hands. About 2 o'clock the view all around was most distressing; about a dozen transports were driving, four or five had cut away their masts, while only five or six were riding at all hopefully.—Near us was a little brig, which we remarked at doing capitally, when all of a sudden, her masts went over the side; still she rode on, but now, alas! the little ship lies on shore with scarcely two timbers holding together, so utterly has the sea broken her up. Near us also was the Lord Raglan, a splendid ship, just new, of about 700 tons, she, too rode on most capitally. Close astern was the little Beagle; how she escaped being swamped is to me a marvel, as, although we were not above 100 yards from her, continually from the height of the sea we could see nothing but the tops of her masts; still she rode on, and altho' she rolled enough to roll everything out of her, yet she seemed to keep herself pretty dry. Astern of her was the Algiers; she rolled, if anything, worse than the Beagle, and carried away one cable, still she held on, and this morning steamed out into safe anchorage.

This morning (Wednesday) the wind has moderated a good deal, and we were on deck, with the feeling that our immediate danger was passed, though the sea still ran very high, and the ship strained at her cables most dreadfully. Arriving on deck, the sight was pitiable. Ten transports, five French and five English, are on shore; two were riding it out with their masts cut away; one, we fear has gone down at her anchors. The only Turk here, a two decker, with the Admiral's flag flying, has nothing but her mainmast and her bowsprit left; her mizen and foremast had been cut away during the night, and her jibbooms and topmasts are both gone close to the cap. I expect the Turkish Admiral is rather sorry he allowed her to risk a Black Sea Winter, and wishes he had taken her home when he sent his beloved Mahmoudie a fortnight since. Three French ships have lost their rudders close off at the head—the Ville de Paris, the Bayard, and the Friedland. Our loss is not much; the Sampson dismasted and the London's rudder-head sprung, being all we can as yet discover.

The Lord Raglan is on shore, but taken there in a most sailor-like manner. Directly her Captain found he could not save her, he cut away his mainmast and mizen, and setting a topsail on her foremast, ran her ashore, stern on, where she lies quite upright, and he has now (4 P. M.) rigged sheers over his hold, either we suppose to save his cargo or lighten his ship. We hope she may be got off. (The sheers were to hoist out his longboat.) A little to the north of us, Nos. 1 and 20 lie side by side on shore, while to the south is No. 27, a splendid ship, and the rest between them. Two brigs are broken quite up; the rest hold quite well together, their crews still on them, and may be saved; one, a French ship, is full of soldiers. No assistance however, can be rendered yet. Our great admiration is a French polacca bark, which, with the topgallantmast set, has ridden it out famously. The shore is teeming with soldiers, who, however, seem very friendly; so much so, that an order has been given not to fire upon them, fearing lest they should murder the poor shipwrecked wretches, if we do. They are of course, taking into Sebastopol any men and plunder they can get; but I suppose that is all right.

5 o'clock P. M.—The Firebrand has just fired on the coast. It seems the wretches were prevented from doing harm by their impotence, not their will, for they have just brought down filed pieces and fired on the wrecks, and the Firebrand is trying to keep them off. We were rather premature in supposing the Russians had become civilized all of a sudden.

Thursday 16th.—To-day broke very fine, with still a stormy breeze from the southwest; the Firebrand still busy keeping off the Russians, who continue hovering about the shore; and some capital shots she makes, dropping shot and shell right into groups of eight or ten, and scattering them most effectually; the boats are all busy getting men off the wrecks, and we hope that very few lives are lost here.—About 8 1-2 A. M. the captain of the Lord Raglan, a most intelligent sailor-like man, came on board; he has great hopes of saving his ship, which is nearly unhurt, and he says that the Russians were most anxious to persuade him yesterday to go on shore, but he declined, very fortunately, as every poor fellow they caught, half drowned and unarmed as he was, they handcuffed and sent off. He says that directly he lighted his lamp, they opened a fire at his skylights, but, fortunately, without doing any damage; he says, too, that his men, of whom he has 30, behaved most splendidly, and he has brought them all off. On leaving us he returned to his ship, and, if man can save her he will do it.

One French bark is full of soldiers, and at them the enemy kept up a continual fire; the poor wretches could not leave their position, owing to everything being washed away, so that they had to cling to the bulwarks for safety, thus affording an excellent mark for the Russians, who took great advantage of it. And yet the savages call themselves Christians! We are very glad to see to-day that all who survived are taken off. Several women were among the transports; what lives are lost we cannot yet learn, but we have seen some four or five women going off to our ships. At noon No. 1 was set on fire, we presume, by her crew, who we know had left her after saving all they could, there not being the slightest chance of getting her off and she is now, 7 P. M., burning most brilliantly, and shedding a lurid light all around her. A splendid, though fearful sight is a ship on fire. It belonged to the same owner as the Lord Raglan, and seems to have as energetic a commander; certainly the next best thing to saving her, which was impossible, was to burn her.

HOGS—The number of hogs slaughtered at Louisville and around the falls up to the 25th inst., is 235,240, which is a falling off from last season of 104,419. The Louisville Courier, in giving these figures, remarks that the falling off in weight will be still greater. The market price at the above date was $4,25 net.

AVERAGE YIELD OF WHEAT IN 1854.—Mr. Herrick, of Verona, furnishes a list of wheat threshed by him on 58 farms in Dane county. The aggregate of wheat amounts to 14,771 bushels—acres 888,—less than 17 bushels per acre. And this is a fair average of the county—as shown by others engaged in threshing. The average of oats per acre is about 30 bushels.—[Madison Democrat.

CITY MATTERS.

CARRIER'S ADDRESS.—Our Carriers' will wait upon the Patrons and friends of the Sentinel this morning with a New Year's Address and the "compliments of the season."

Police Court—Dec. 29th.

BEFORE CLINTON WALWORTH ESQ. POLICE JUSTICE.

A man named Forbert was fined $2,00 and costs for leaving his team unhitched in the street.

Whose duty is it to look after the bridges now, and to prevent men from trotting their loaded teams across them? There is not a day passes but from twenty to thirty teams, loaded heavily, are trotted across Spring St. Bridge, and no one to prevent it. Where is the bridge tender, or have his duties ceased?

A warrant was issued against a man named Schitze for an alleged assault and battery upon Conrad Beeres.

The case of the State vs. Edward Cavanaugh et als. was continued till the 13th of January at 10 o'clock.

FEMALE COLLEGE.—We invite attention to the report of the doings at this institution on Friday evening, and beg leave to suggest that the very best New Year's Gift which our citizens can make to themselves, is to be liberal and prompt in freeing the institution from debt. It must be done, and to be well done, must be done quickly. Several gentlemen have already done a noble share of the good work.

FIRE.—The Drying kiln, belonging to the M. & M. R. R. Company took fire between 11 and 12 o'clock Saturday night. The alarm was sounded, and Engines Nos. 1 and 5 were promptly on the ground and soon extinguished the flames. The damage done was inconsiderable.

THE NEW SHERIFF POSSE.—We understand that the Sheriff, S. S. Connover, whose term of office commences to-day, has appointed as under Sheriff, William Beck, former Deputy Sheriff, and William G. Parsons and August Seifert deputies.—These gentlemen are well known to the public as efficient officers. Mr. Parsons has been the actual jailer for the past two years, and possesses the faculty of keeping safely, the criminals of this, as well as of other counties. We should not be surprised if these four constituted the whole of the Sheriff posse for the coming two years; the business of the county not seeming to require a greater number.

Milwaukee Female College.

A large audience met in the principal room of the College on Friday evening, and after the reading of several papers on various literary subjects, by Judge A D SMITH, and music by some of the pupils, the Rev Mr MITER read a statement of the affairs of the College. Interesting addresses were made by Messrs LYNDE and HOLTON. Mr Tweedy proposed a formal organization, and nominated Mr I A LAPHAM as Pres't, and R MENZIES as Sec'y, who were chosen. Mr TWEEDY then presented the form of a subscription paper, and very eloquently urged the necessity of immediate and liberal action on the part of our citizens.

He was followed by Mr. WALDO, Ald. HADLEY and Rev. Mr. SPENCER and others.

Several gentlemen came up to the desk and opened the subscription at once. It was moved and carried that a committee of five* be appointed to solicit subscriptions, and that the committee from the American Women's Association appoint a committee of ten ladies for the same purpose.

Mr. J. H. Van Dyke then moved that when this meeting adjourn, it adjourn to meet on Friday evening, Jan. 5th, at the same place, to hear the reports from the committees, which being carried, the meeting adjourned.

*The names will be given on Wednesday.

A CARD.

The Rev. J. P. T. INGRAHAM would express his grateful thanks to his Parishioners and other friends, both for many substantial tokens of regard, at the Pastoral visit on the 28th, and for that evident kindness and sympathy, so valuable, to a Pastor's heart. May He who can pour out true and lasting gladness on the soul, reward with His own rich blessings these kind friends.

Mr. Ingraham would also improve this opportunity to express to his Parishioners and many other citizens, his grateful acknowledgements for contributions during the past spring and summer to the amount of $1,100, for the purchase and refitting the Parsonage of St. James' Church.—For all of which kindness he can only commend them to Him whom he serves, remembering it is written, "God is not unrighteous that He will forget your works and labor that proceedeth of love; which love ye have showed for His name's sake, who have ministered unto the saints and yet do minister."

CHURCH DEDICATION AT FOX LAKE.—The new Methodist Church recently constructed at Fox Lake, Dodge Co, was to be consecrated yesterday. This makes three churches in the village of Fox Lake viz. Baptist, Catholic and Methodist, which in addition to the School House and two Colleges, makes a good show in a youthful village for temples of Religion and Learning.

The New Year.

With this morning's light, another Year dawns upon the world. That which died, so gently and peacefully last night, was one of strange and eventful incident. It has been a year of disasters by flood and field; of destructive fires and devastating shipwrecks; of scanty crops, parching drought and wasting disease; of heavy failures and more disheartening frauds in business and commercial circles; of great stringency and general embarrassment in monetary affairs; and of wars and rumors of wars throughout the European Continent. Yet to us and ours, it has brought in its course, far more of good than of evil, and furnished fresh cause of gratitude to the Great Being, whose power created and whose wisdom governs the world.

The pestilence which walketh at noon-day and has wasted other lands, passed us lightly by. While elsewhere untimely frosts, or rains long-continued, or a cauldron soil, stinted the fruits of the earth, here the labor of the husbandman have been crowned with abundant harvests. The reverses of business and the revulsions in the money market, which struck down so many victims in other cities, touched but few here. We have not indeed escaped unscathed from the swoop of the Fire King; but the visitation was a partial one and already stately stores have sprung from its black and smoking ruins. Above all, while War has reared his horrid crest and shown his [illegible] front on the classic shores of the Crimea, and the three greatest Powers of Europe, are engaged in doubtful and deadly strife, Peace has been in all our borders and under her benign reign Agriculture has flourished, Industry pursued its accustomed labors, and Commerce, borne on the wings of the wind, visited, unchecked and unmolested the remotest regions of the earth.

Thus kindly has the Year that is past dealt with our favored land. What may be in store for our own and other countries, in the Year upon whose threshold we stand to-day, is hidden by Time's mysterious curtain. But that is a true philosophy which says, 'Look not mournfully upon the Past, it is gone—Wisely improve the Present, it is thine—Go forth to meet the shadowy Future, without fear and with a manly heart.' To that Future let us turn with Hope. May it come fully freighted with blessings to our beloved country, bringing with it success for our Commercial interests, encouragement and employment for all the useful forms of Industry, and onward and upward progress in Education, Virtue and Religion. May Peace still bless us with her [illegible] sorrow sadden, but not harden our hearts; and Health dwell in all our households. And may we never cease to remember the lesson which this hallowed season emphatically teaches, glory to God and good will to man."

Friends and Patrons of the SENTINEL! You who have journeyed with us hopefully and confidingly in the Past—you whose generous patronage has lightened all our labors—you with whom we hold daily converse, and to whom, as we would hope, the face of the Sentinel is as familiar and as welcome as that of an old and tried friend—you with whom we, to-day, for the first time exchange the cordial greetings of the season—how can we better show our grateful appreciation of all your kindness, than by invoking Heaven's choicest blessings upon you and yours and tendering to each and all, from our inmost heart, the wish of "A HAPPY NEW YEAR!"

HOLIDAY GOODS.—In the crowded state of our columns this morning, we cannot find space for the ready article, calling attention to advertisements of our merchants of their Holiday stock. The advertisements, however, speak for themselves, and a perusal of them by all who are in search of the proper material for Gifts for the season, will be sure to result in finding out the best places at which to purchase. We have given a portion of the advertisements intended especially for the season, but others scattered through the paper ought to be examined.

U. S. District Court.

The U. S. District Court, Judge MILLER presiding, commences its January term this day. The session derives peculiar interest from the fact that JOHN RYCRAFT is to be sentenced and S. M. BOOTH to be tried, for participating in the rescue of the alleged Fugitive Slave Glover from the custody of the U. S. Marshal. The Grand Jurors are summoned for this morning, at 10 o'clock, and the Petit Jurors for to-morrow—We presume, therefore, that Mr. BOOTH's trial will commence to-morrow. We shall endeavor to keep the readers of the Sentinel fully advised of the proceedings of the Court and the progress of this trial from day to day.

WATERTOWN RAILROAD.—We learn that this Company intend to run henceforward two passenger trains each way per day, leaving here at 7 A. M. and 5 30 P M, and Oconomowoc at 7 A M and 3 P M. The arrangement will be such as to enable travelers from Oconomowoc, in both morning and evening trains, to connect with the trains going west on the M & M R R. It will greatly facilitate travel between Watertown and the city, which has thus far been rather hindered than helped by the railroad.

We are glad to learn that the receipts of this road open very well and are confident that they will run up to a high figure in a few weeks.

OSHKOSH CITY BANK.—The Wisconsin reports Comptroller DENNIS as saying that at the present market value of the stocks deposited by Oshkosh City Bank, its outstanding notes are worth 85 cents on the dollar; and that the proceeds of these stocks and of the personal bond of Messrs. Rowland, Hall & Fenning will enable him to redeem the outstanding circulation, dollar for dollar. Such is not the opinion of the Banks and bankers in this city. They do not regard the Oshkosh money as worth now over 90 cents on the dollar. But if the New York money market improves and stocks continue to rise, the securities (North Carolina, Virginia and Missouri State Stocks) will doubtless reach par again, and make the notes worth their face. Had the managers of the Oshkosh City Bank complied with the requirements of the Comptroller, and deposited the 10 per cent additional security, demanded by that officer, to make up for the depreciation of State Stocks, the other banks would have continued to receive its notes at par, even after it had closed its doors. Such we learn, will be their course in regard to any other State Banks that may be forced to suspend payment: In every case where security has been deposited with the Comptroller, as called for by him, the notes of the suspended Bank will be received by all the other Banks at par. But where this has not been done, the notes will be refused.

New York Money Market.

The Tribune of Tuesday says that the favorable character of the foreign news, assisted by the large arrival of gold by the George Law, gave quite an impetus to business in the fore part of the week. In Railroad Bonds the transactions were $370,000 at improving prices. Ill. Central advanced to 77, an improvement of 1 ₱ cent. Erie Incomes advanced 1¼ ₱ cent, selling at 87, [illegible] at 80; Harlem 1st Mortgages, [illegible]. State Stocks are improving, [illegible] though in good supply, advanced [illegible] 97.

GERMAN CONSUL FOR THE WESTERN STATES.—We copied on Saturday a paragraph from the Chicago Democrat to the effect that FRANCIS A HOFFMAN, of that city, had been appointed German Consul for the Western States, to reside at Chicago. To prevent any misapprehension, it seems proper to add that Mr. C. H. H. PAPENDIEK, of this city, has held for some years and still holds a similar appointment for the States of Wisconsin, Illinois, Indiana, Michigan and Iowa, and the Territory of Minnesota.

DEATH OF PROMINENT MEN.—Ex Governor MOREHEAD, of Kentucky, a man of mark and influence, died at Frankfort, after a long illness, on Friday last. CORNELIUS DARRGH, a prominent lawyer and politician, died at Pittsburgh on Thursday, after few day's illness.

THE CHILD OF TWO MOTHERS.—Judge SMITH, of our State Supreme Court, who issued the writ of Habeas Corpus, in the case of the boy, claimed by the Partridge family, and also by an Indian woman of the Menomonee tribe, and who was recently brought back from Illinois by Mr. HUEBSCHMAN, Superintendent of Indian affairs, after hearing the statements of the parties on Saturday,—made an order directing the child to be placed in custody of the Sheriff till the first Tuesday of March, when the case will be heard and decided.

☞ We learn from the Chicago Dem. Press that the Hon E Estabrook, formerly Att'y General of this State and now U S Dist Attorney for Nebraska, passed through Chicago, Thursday, on his way to assume the duties of his new station.

Nebraska Election.

The Council Bluffs Bugle of the 15th inst. contains partial returns of the election in the Territory of Nebraska, held on the 12th inst., from which we infer the election of N. B. Giddings to Congress, over H. D. Johnston. Hon. B. B. Chapman, who had been a candidate, withdrew from the canvass, leaving the field to the two gentlemen named above. The vote as far as reported, stands as follows:

	Giddings.	Johnson.
Omaha District,	0	190
Belleview,	66	—
Winter Quarters,	16	13
Burt County,	—	24
Platsmouth,	111	3
Cass County,	111	3
Total.	310	233

The Bugle expresses its confidence in the election of Giddings. We believe Giddings is known as a Benton Democrat. Johnson is the old Delegate from Nebraska.

The following are the legislative returns as far as known;

For Councilmen in Douglas Co.—Rogers Jones, Richardson and Goodwill were elected

For Representatives.—Byers, Davidson, Davis Clancy, Hanscom Goyer, Poppleton, and Whitted, were elected.

For Councilman from Washington Co.—J. C Mitchel.

For Representatives.—B. Winchester and A J. Smith.

For Burt Co.—Councilman, B. R Folsom.

For Representatives.—H. O. Purple, J. D Robertson.

ERIE CITY BANK, PENNSYLVANIA.—We have received the following communication from Messrs. S. C. HALL & Co, Whitewater, in reference to a paragraph in Friday's Sentinel, to the effect that rumors unfavorable to the Erie City Bank, were in circulation in our city and that some of the Banks refused its notes:

WHITEWATER, Dec. 9th, 1854.

Messrs. Editors:

We noticed a paragraph in your paper of this morning, calculated to discredit the Erie City Bank, Pa. We have paid out in this place about ten thousand dollars of the circulation of the Bank and have done so, knowing it to be good and safe, and the Bank prepared to redeem its circulation when presented at its counter.

Yours, Respectfully,
S. C. HALL & CO.

EASTERN WHEAT-BUYERS AT CHICAGO.—The Chicago Tribune of Friday notices a sale of 8,000 bushels of wheat to go to Pittsburg, Penn., and a few lots to Vermont, for milling. The Tribune adds that there are several Eastern buyers in that market, for millers in Michigan, New York, Pennsylvania and the Eastern States, and that the demand for and price of wheat are increasing. Buyers can find a good opening in this market. There is plenty of wheat in the hands of our farmers, ready to come in, and the receipts here will increase rapidly as the market improves—as improve it must.

MISTAKE.—The Chicago Press corrects the statement of one or two of its contemporaries, to the effect that Mr. Tinkham had resigned as Cashier of the Marine Bank on account of ill health. The Press says that Mr. Tinkham's health is quite precarious, but that he has not yet found it necessary to relinquish his post,

PROSPECTS OF THE WAR.—The London Times, commenting upon the recent offer of Russia to reopen negotiations for Peace, on the basis of the "Four Points," very sharply says:

> It cannot for a moment be supposed that the Allied Powers will consent to desist from the vast enterprise in which they are engaged upon any terms short of the surrender and demolition of Sebastopol, for till that has been accomplished nothing has been done for the permanent settlement of these momentous questions; and we must also be in condition to require that no such armaments and fortifications shall again menace the inland shores of the Turkish dominions.
>
> For these reasons we belive that war on a more extented scale, and not peace, will arise out of the present conjuncture of affairs.

Missouri Legislature.

The legislature of Missouri convened in Jefferson City on Christmas Day. In the Senate, J A. Holliday, Anti-Benton, was elected Secretary; M. V. Harrison, Benton, Sergeant-at-Arms, H. H. Barber, Whig, Engrossing Clerk, and P. Pipkin, Know Nothing, Enrolling Clerk—an equitable division of "the spoils." In the House, on the first day, there was no choice of officers. Whigs, Bentonites and Anti-Benton men sticking to their respective candidates. The Whig members held a caucus the same evening and resolved to make opposition to Slavery Agitation and support of the Nebraska iniquity a sine qua non in the selection of Speaker and U S Senator. The result of this movement was a coalition, on the following day, between the Whigs and Benton men, whereby Newland, whig, was elected Speaker, Kelly, Benton, Speaker pro tem; Love, Benton, Clerk, and Wallace and Collier, Whigs, assistant clerks. This result is also thought to indicate the election of Col. BENTON to the U. S Senate, in place of Mr. ATCHISON, which would certainly be a great change for the better.

CHURCH DEDICATION AT OAK GROVE.—The Congregational Church at Oak Grove, Dodge County, is to be consecrated on Wednesday next, January 3d. A Fair was to be given by the ladies of Oak Grove and surrounding country, the proceeds to be given to the Church.

The Great Storm in the Black Sea!

From a Private Correspondent of the London Times.

Her Majesty's Ship ——, off the Katcha, Nov 15

Thank God, my dear ——, I am alive, and able to give you an account of the horrors I have witnessed and escaped during the last two days. On Tuesday we expected every moment to be either drowned or taken prisoners, such was the fury of the gale we have just experienced. The oldest sailors say they have never been in such danger,—not only was there the fearful gale to dread; but a lee shore within a mile and a quarter of us, and some 50 sail of all sorts around us. I will endeavor to give you a detailed account of it.

"On Monday it blew fresh from the south-west, but, as the barometer was rising and nothing indicated bad weather, we took no notice of it, especially as we all had imbibed an idea, now utterly eradicated, that is was never known to 'blow home' in the Black Sea. The flag ship, fortunately shifted her anchorage and got a good offing, but no other ship followed her example.

On Tuesday (yesterday) morning there was still a stiff breeze, with occasional squalls; still no alarm, until one of the squalls lengthened itself out—if I may so express myself—into a regular gale, and then we began to feel the unpleasantness of our situation. Immediately a second anchor was let go, and this was soon followed by our sheet anchor; still, with an enemy's shore scarcely a mile distant and breakers much nearer, it was, of course, a most anxious time.

About 10 A. M. the transport No. 20, the Ganges, began to drive—she having, I fancy, parted her cable. Right astern of her was No. 1, the Pyrenees, which she soon fouled; and a most fearful sight it was. Spars snapped like rotten sticks; jib-booms bowsprits, yards, masts, all shared the same crash; the two ships grinding together in a most awful manner. Of course No. 1 soon began to drive, as well as No. 20, and both locked together, bore down upon the poor Samson. Soon they were foul of her, and the same work of destruction began, and in ten minutes they cleared from her, and there lay the bold, defiant little Sampson, shorn of all her beauty, with not an inch of anything except her funnels standing, her masts having all gone with one awful crash and fallen inboard, so that we are most anxious, though most fearful, to hear of the damages they must have done in their hall. Her bowsprit is also gone short off. In fact, she is a complete wreck Parting from her, No 20 brought up, and we hoped was safe, while No. 1 still drove on towards the shore, and, much as we pitied her, help was, of course utterly impossible.

While this was going on inside us, just outside us two French line's, the Jupiter and Bayard, fouled, but, fortunately, or by good management got clear, with only a slight smashing of boats and their quarters, and brought up with four anchors each. About noon the gale was at its highest, and there was then a cry that the Terrible had parted a cable, and was among the breakers. Every moment we expected she would go on shore, but soon the paddles revolved, the remaining cable was slipped, and right in the teeth of gale, steamed out the splendid Terrible. This was the most cheering sight during the whole of this eventful day, and a glorious sight it certainly was to see that steamer going through everything and proving the mighty conquest of man over the elements. Our situation all the time was most critical. Right ahead of us were four French liners, one or two of which had already driven, and if any of them parted their cable, our destruction was inevitable; and, to make it, if possible, worse, there was the knowledge that we could do nothing, but most patiently abide our lot whatever Providence thought fit for that to be. We had done our all—the result was in God's hands. About 2 o'clock the view all around was most distressing; about a dozen transports were driving, four or five had cut away their masts, while only five or six were riding at all hopefully.—Near us was a little brig, which we remarked at doing capitally, when all of a sudden, her masts went over the side; still she rode on, but now, alas! the little ship lies on shore with scarcely two timbers holding together, so utterly has the sea broken her up. Near us also was the Lord Raglan, a splendid ship, just new, of about 700 tons, she, too rode on most capitally. Close astern was the little Beagle; how she escaped being swamped is to me a marvel, as, although we were not above 100 yards from her, continually from the height of the sea we could see nothing but the tops of her masts; still she rode on, and altho' she rolled enough to roll everything out of her, yet she seemed to keep herself pretty dry. Astern of her was the Algiers; she rolled, if anything, worse than the Beagle, and carried away one cable, still she held on, and this morning steamed out into safe anchorage.

This morning (Wednesday) the wind has moderated a good deal, and we were on deck, with the feeling that our immediate danger was passed, though the sea still ran very high, and the ship strained at her cables most dreadfully. Arriving on deck, the sight was pitiable. Ten transports, five French and five English, are on shore; two were riding it out with their masts cut away; one, we fear has gone down at her anchors. The only Turk here, a two decker, with the Admiral's flag flying, has nothing but her mainmast and her bowsprit left; her mizen and foremost had been cut away during the night, and her jibbooms and topmasts are both gone close to the cap. I expect the Turkish Admiral is rather sorry he allowed her to risk a Black Sea Winter, and wishes he had taken her home when he sent his beloved Mahmoudie a fortnight since. Three French ships have lost their rudders close off at the head—the Ville de Paris, the Bayard, and the Friedland Our loss is not much; the Sampson dismasted and the London's rudder-head sprung, being all we can as yet discover.

The Lord Raglan is on shore, but taken there in a most sailor-like manner. Directly her Captain found he could not save her, he cut away his mainmast and mizen, and setting a topsail on her foremast, ran her ashore, stern on, where she lies quite upright, and he has now (4 P. M.) rigged sheers over his hold, either we suppose to save his cargo or lighten his ship. We hope she may be got off. (The sheers were to hoist out his longboat.) A little to the north of us, Nos. 1 and 20 lie side by side on shore, while to the south is No. 27, a splendid ship, and the rest between them. Two brigs are broken quite up; the rest hold quite well together, their crews still on them, and may be saved; one, a French ship, is full of soldiers. No assistance however, can be rendered yet. Our great admiration is a French polacca bark, which, with the topgallantmast set, has ridden it out famously. The shore is teeming with soldiers, who, however, seem very friendly; so much so, that an order has been given not to fire upon them, fearing lest they should murder the poor shipwrecked wretches, if we do. They are of course, taking into Sebastopol any men and plunder they can get; but I suppose that is all right.

5 o'clock P. M.—The Firebrand has just fired on the coast. It seems the wretches were prevented from doing harm by their impotence, not their will, for they have just brought down filed pieces and fired on the wrecks, and the Firebrand is trying to keep them off. We were rather premature in supposing the Russians had become civilized all of a sudden.

Thursday 16th.—To-day broke very fine, with still a stormy breeze from the southwest; the Firebrand still busy keeping off the Russians, who continue hovering about the shore; and some capital shots she makes, dropping shot and shell right into groups of eight or ten, and scattering them most effectually; the boats are all busy getting men off the wrecks, and we hope that very few lives are lost here.—About 8 1-2 A. M. the captain of the Lord Raglan, a most intelligent sailor-like man, came on board; he has great hopes of saving his ship, which is nearly unhurt, and he says that the Russians were most anxious to persuade him yesterday to go on shore, but he declined, very fortunately, as every poor fellow they caught, half drowned and unarmed as he was, they handcuffed and sent off. He says that directly he lighted his lamp, they opened a fire at his skylights, but, fortunately, without doing any damage; he says, too, that his men, of whom he has 30, behaved most splendidly, and he has brought them all off. On leaving us he returned to his ship, and, if man can save her he will do it.

One French bark is full of soldiers, and at them the enemy kept up a continual fire; the poor wretches could not leave their position, owing to everything being washed away, so that they had to cling to the bulwarks for safety, thus affording an excellent mark for the Russians, who took great advantage of it. And yet the savages call themselves Christians! We are very glad to see to-day that all who survived are taken off. Several women were among the transports; what lives are lost we cannot yet learn, but we have seen some four or five women going off to our ships. At noon No. 1 was set on fire, we presume, by her crew, who we know had left her after saving all they could, there not being the slightest chance of getting her off and she is now, 7 P. M., burning most brilliantly, and shedding a lurid light all around her. A splendid, though fearful sight is a ship on fire. It belonged to the same owner as the Lord Raglan, and seems to have as energetic a commander; certainly the next best thing to saving her, which was impossible, was to burn her.

HOGS.—The number of hogs slaughtered at Louisville and around the falls up to the 25th inst., is 235,240, which is a falling off from last season of 104,410. The Louisville Courier, in giving these figures, remarks that the falling off in weight will be still greater. The market price at the above date was $4,25 net.

AVERAGE YIELD OF WHEAT IN 1854.—Mr. Herrick, of Verona, furnishes a list of wheat threshed by him on 58 farms in Dane county. The aggregate of wheat amounts to 14,771 bushels—acres 888,—less than 17 bushels per acre. And this is a fair average of the county, as shown by others engaged in threshing. The average of oats per acre is about 30 bushels.—[Madison Democrat.

CITY MATTERS.

CARRIER'S ADDRESS.—Our Carriers' will wait upon the Patrons and friends of the Sentinel this morning with a New Year's Address and the "compliments of the season."

Police Court—Dec. 29th.

BEFORE CLINTON WALWORTH ESQ. POLICE JUSTICE.

A man named Forbert was fined $2,00 and costs for leaving his team unhitched in the street.

Whose duty is it to look after the bridges now, and to prevent men from trotting their loaded teams across them? There is not a day passes but from twenty to thirty teams, loaded heavily, are trotted across Spring St. Bridge, and no one to prevent it. Where is the bridge tender, or have his duties ceased?

A warrant was issued against a man named Schitze for an alleged assault and battery upon Conrad Beeres.

The case of the State vs. Edward Cavanaugh et als. was continued till the 13th of January at 10 o'clock.

FEMALE COLLEGE.—We invite attention to the report of the doings at this institution on Friday evening, and beg leave to suggest that the very best New Year's Gift which our citizens can make to themselves, is to be liberal and prompt in freeing the institution from debt. It must be done, and to be well done, must be done quickly Several gentlemen have already done a noble share of the good work.

FIRE.—The Drying kiln, belonging to the M. & M. R. R. Company took fire between 11 and 12 o'clock Saturday night. The alarm was sounded, and Engines Nos. 1 and 5 were promptly on the ground and soon extinguished the flames. The damage done was inconsiderable.

THE NEW SHERIFF POSSE.—We understand that the Sheriff, S. S. Connover, whose term of office commences to-day, has appointed as under Sheriff, William Beck, former Deputy Sheriff, and William G. Parsons and August Seifert deputies.—These gentlemen are well known to the public as efficient officers. Mr. Parsons has been the actual jailer for the past two years, and possesses the faculty of keeping safely, the criminals of this, as well as of other counties. We should not be surprised if these four constituted the whole of the Sheriff posse for the coming two years; the business of the county not seeming to require a greater number.

Milwaukee Female College.

A large audience met in the principal room of the College on Friday evening, and after the reading of several papers on various literary subjects, by Judge A D SMITH, and music by some of the pupils, the Rev Mr MITER read a statement of the affairs of the College. Interesting addresses were made by Messrs LYNDE and HOLTON. Mr TWOEDY proposed a formal organization, and nominated Mr I A. LAPHAM as Pres't, and R MENZIES as Sec'y, who were chosen. Mr TWEEDY then presented the form of a subscription paper, and very eloquently urged the necessity of immediate and liberal action on the part of our citizens.

He was followed by Mr. WALDO, Ald. HADLEY and Rev. Mr. SPENCER and others.

Several gentlemen came up to the desk and opened the subscription at once. It was moved and carried that a committee of five* be appointed to solicit subscriptions, and that the committee from the American Women's Association appoint a committee of ten ladies for the same purpose.

Mr. J. H. Van Dyke then moved that when this meeting adjourn, it adjourn to meet on Friday evening, Jan. 5th, at the same place, to hear the reports from the committees, which being carried, the meeting adjourned.

*The names will be given on Wednesday.

A CARD.

The Rev. J. P. T. INGRAHAM would express his grateful thanks to his Parishioners and other friends, both for many substantial tokens of regard, at the Pastoral visit on the 29th, and for that evident kindness and sympathy, so valuable, to a Pastor's heart. May HE who can pour out true and lasting gladness on the soul, reward with His own rich blessings these kind friends.

Mr. Ingraham would also improve this opportunity to express to his Parishioners and many other citizens, his grateful acknowledgements for contributions during the past spring and summer to the amount of $1,100, for the purchase and refitting the Parsonage of St. James' Church.—For all of which kindness he can only commend them to HIM whom he serves, remembering it is written, "God is not unrighteous that He will forget your works and labor that proceedeth of love; which love ye have showed for His name's sake, who have ministered unto the saints and yet do minister."

CHURCH DEDICATION AT FOX LAKE.—The new Methodist Church recently constructed at Fox Lake, Dodge Co, was to be consecrated yesterday. This makes three churches in the village of Fox Lake viz. Baptist, Catholic and Methodist, which in addition to the School House and two Colleges, makes a good show in a youthful village for temples of Religion and Learning.

The vessel was leaking badly, but could be kept afloat by pumps. Our informants came through to the nearest settlement by an Indian trail. They travelled ninety miles without food or fire, froze their feet, and suffered extremely from cold and hunger. The vessel was owned by E. K. Bruce, of Buffalo. Further Explanations.—In order to make the actual position of Sebastopol and the besieging force clear, it will be necessary to glance at a map of Russia and the Black Sea, large enough to show the conformation of that singular Peninsula, the Crimea. It will be noticed that from a narrow strait, where is located the fortified town of Perekop, the peninsula expands to a considerable width, terminating in Cape Chersonese; and that though the general direction of the peninsula is southerly from the main land, this Cape juts out in a north-westerly direction. Sebastopol harbor and city is about six miles from Cape Chersonese, in a north easterly direction, and the direction of the indentation of the principal harbor in such, that a line drawn from fig. 23 in the cut to fig. 6, would be almost due east and west. From Cape Chersonese, which lies in the direction of the upper left hand corner of the cut, the shores of the Black Sea, being composed of high and rugged cliffs, extend in nearly an east and west line about 8 miles to Balaklava Bay, where the Allies established themselves for the siege, and where their supplies are landed from the transports. A line drawn from fig 9 through fig 14, would strike very near Balaklava Harbor, which is seven miles from Sebastopol.

The ruins of Inkerman, from which the late bloody battle takes its name, are near the Light House (figure 24,) and the river Tchernaya, which was dyed with the blood of thousands on that fatal 5th of November, and across which General Liprandi retired, destroying the bridges, empties into the great Harbor, near figure 32. Upon the high and broken grounds looking down upon Sebastopol, and which, if our cut were more extended, would be shown to the left hand of, and below the left side of the cut, the Allies are at work, their parallels being advanced to within four or five hundred yards of the town, on the west side. The Russians have surrounded Sebastopol, on the south and west sides, with a temporary wall, to protect the town from an attack by storm.

A line of sunken ships, from Fort Alexander to Fort Constantine, protects the harbor from being entered by the Allied Fleet, the distance being about half a mile. The great harbor, from the above forts to Inkerman Light-house, is five miles in length. The Southern Bay is one mile long by ½ to ¾ of a mile wide. The Aqueduct (figure 20,) is a conduit of fresh water to Sebastopol. has long since been cut off by the Allies, but doubtless a sufficient supply of water has been provided for the garrison.

A strongly fortified Round Tower, which does not appear on the cut, stands somewhere near the location of the Tunnel, and is sustained by Russian Entrenchments, and the English batteries are advanced within 400 yards of this point the line of entrenchments of the besieging force stretching thence around the South and West sides of the town to the vicinity of Quarantine Bay, where the French batteries are within half a mile of Fort Alexander.

A NEW

PIANO FORTE WARE-ROOM!

Where he will keep on hand a good assortment of the celebrated

AMERICAN ACTION PIANO FORTES,

Manufactured by George Hews, of Boston, Mass.

The Patent American Action Piano Forte is distinguished for its great fullness, richness and sweetness of tone, evenness of scale, and delicacy of touch. The improvement in the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession, residents at Boston and elsewhere, among which are the following:

From the illustrious Pianist, L. M. Gottschalk, to Mr Hews, Agent at New York:

New York, Dec. 5, 1843.

Mr. N. J. CURTISS:—

Dear Sir: Having had the pleasure of performing upon Geo Hews' American Action Piano at the World's Fair in this city the present year, and other of his Pianos at your Wareroom, which afforded me much gratification, I cheerfully recommend them to the public. I am very glad of the improvement in the action. These instruments likewise are of excellent tone, owing, no doubt, to the perfection of the scales.

Very Respectfully, L. M. GOTTSCHALK.

From the distinguished Pianist, William Mason:

Mr. HEWS:—Having repeatedly played upon the Piano Fortes manufactured by you, with the American Action, I am free to acknowledge, that for certainty and elasticity of action, power, purity and equality of tone, I have never seen them surpassed in the square Piano Forte.

WILLIAM MASON.

Purchasers and lovers of music in general, are respectfully invited to call and examine these instruments. These Pianos will be sold at Boston prices, and warranted to give satisfaction in every respect.

☞ Pianos to Let. Old Pianos taken in exchange, and liberal prices allowed.

☞ Pianos Tuned and Repaired.

The whole fleet number more than 2,300 guns, and it certainly will be a most important achievement to destroy this great naval armament which was the dread of Turkey, and could at any moment take possession of the Bosphorus and Constantinople.

Further Explanations.—In order to make the actual position of Sebastopol and the besieging force clear, it will be necessary to glance at a map of Russia and the Black Sea, large enough to show the conformation of that singular Peninsula, the Crimea. It will be noticed that from a narrow strait, where is located the fortified town of Perekop, the peninsula expands to a considerable width, terminating in Cape Chersonese; and that though the general direction of the peninsula is southerly from the main land, this Cape juts out in a north-westerly direction. Sebastopol harbor and city is about six miles from Cape Chersonese, in a north easterly direction, and the direction of the indentation of the principal harbor is such, that a line drawn from fig. 23 in the cut to fig. 6, would be almost due east and west. From Cape Chersonese, which lies in the direction of the upper left hand corner of the cut, the shores of the Black Sea, being composed of high and rugged cliffs, extend in nearly an east and west line about 8 miles to Balaklava Bay, where the Allies established themselves for the siege, and where their supplies are landed from the transports. A line drawn from fig 9 through fig 14, would strike very near Balaklava Harbor, which is seven miles from Sebastopol.

The ruins of Inkerman, from which the late bloody battle takes its name, are near the Light House (figure 24,) and the river Tchernaya, which was dyed with the blood of thousands on that fatal 5th of November, and across which General Liprandi retired, destroying the bridges, empties into the great Harbor, near figure 32. Upon the high and broken grounds looking down upon Sebastopol, and which, if our cut were more extended, would be shown to the left hand of, and below the left side of the cut, the Allies are at work, their parallels being advanced to within four or five hundred yards of the town, on the west side. The Russians have surrounded Sebastopol, on the south and west sides, with a temporary wall, to protect the town from an attack by storm.

A line of sunken ships, from Fort Alexander to Fort Constantine, protects the harbor from being entered by the Allied Fleet, the distance being about half a mile. The great harbor, from the above forts to Inkerman Light-house, is five miles in length. The Southern Bay is one mile long by ¾ to ½ of a mile wide. The Aqueduct (figure 20,) is a conduit of fresh water to Sebastopol, has long since been cut off by the Allies, but doubtless a sufficient supply of water has been provided for the garrison.

A strongly fortified Round Tower, which does not appear on the cut, stands somewhere near the location of the Tunnel, and is sustained by Russian Entrenchments, and the English batteries are advanced within 400 yards of this point the line of entrenchments of the besieging force stretching thence around the South and West sides of the town to the vicinity of Quarantine Bay, where the French batteries are within half a mile of Fort Alexander.

THE UNDERSIGNED WOULD RESPECTFULLY announce to the Public, that he has opened, on

A NEW
PIANO FORTE WARE-ROOM!
Where he will keep on hand a good assortment of the celebrated
AMERICAN ACTION PIANO FORTES,
Manufactured by George Hews, of Boston, Mass.

The Patent American Action Piano Forte is distinguished for its great fullness, richness and sweetness of tone, evenness of scale, and delicacy of touch. The improvement in the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession, residents at Boston and elsewhere, among which are the following:

From the illustrious Pianist, L. M. Gottschalk, to Mr Hews, Agent at New York:

New York, Dec. 5, 1843.

Mr. N. J. CURTISS:—

Dear Sir: Having had the pleasure of performing upon Geo Hews' American Action Piano at the World's Fair in this city the present year, and other of his Pianos at your Wareroom, which afforded me much gratification, I cheerfully recommend them to the public. I am very glad of the improvement in the action. These instruments likewise are of excellent tone, owing, no doubt, to the perfection of the scales.
Very Respectfully, L. M. GOTTSCHALK.

From the distinguished Pianist, William Mason:

Mr. HEWS:—Having repeatedly played upon the Piano Fortes manufactured by you, with the American Action, I am free to acknowledge, that for certainty and elasticity of action, power, purity and equality of tone, I have never seen them surpassed in the square *Piano Forte*.
WILLIAM MASON.

Purchasers and lovers of music in general, are respectfully invited to call and examine these instruments. These Pianos will be sold at Boston prices, and warranted to give satisfaction in every respect.
☞ Pianos to Let. Old Pianos taken in exchange, and liberal prices allowed.

PIANOS! PIANOS!! PIANOS!!!

ATTENTION OF PURCHASERS IS PARTICULARLY called to a new and gigantic invention in Pianofortes now fully perfected, and before the public, known as [illegible] CELESTIAL TABLE-SHAPED PIANO. The peculiarity of the Celestial Piano consists in its capacity for *octave playing* with the single finger, an attainment hitherto unknown to the Pianoforte. The most *ordinary performer* is enabled by the aid of this improvement to produce effects in octave playing which would confound a Thalberg or a Liszt. One of its chief excellencies is its capacity to be used as well as an ordinary Piano of the sweetest quality of tone, and is instantly changed by the use of a common pedal to a combination so thrilling and majestic, as to captivate and charm the heart. These instruments are superior in power to two ordinary 7 octave Pianos, while for sweetness, purity, breadth, and richness of tone, they challenge the competition of the world.

This is the united testimony of Professors and Amateurs who have tested the Celestial Piano. Ordinary 7 octave [illegible] of all sizes, new and second hand for sale at reduced prices

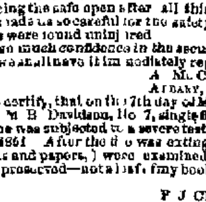
FireKing Safe, again Triumphant.



$1,000 will be paid, if reliable evidence is shown where they ever failed to preserve valuables from fire, where *other* makers' Safes have proved worthless in various accidental and experimental tests, some of which occurred recently

Read the following from Messrs A. McClure & Co, wholesale and extensive dealers in Drugs, Medicines, &c

ALBANY, July 27, 1852

This is to certify, that on the 23d day of July, 1852, our entire stock, composed of Turpentine, Alcohol, Oil, Patent Medicines, &c, was consumed by fire, so rapid and so severe was the fire that we were unable to close one safe until Mr Pohlman subsequently entered at the peril of his life and closed the doors

After forcing the safe open after all this exposure and fire which it was so careful for the safety of its contents, its valuables were found uninjured

We have so much confidence in the security of the Fire King, that we shall have it immediately replaced

A McCLURE & CO

ALBANY, Dec 9, 1852

This is to certify, that on the 7th day of May, 1851, I purchased of J. McB Davidson, No 7, single flange safe, and that the same was subjected to a severe test on the 18th of December, 1851 After the fire was extinguished, its contents (books and papers,) were examined, and found to be perfectly preserved—not a leaf of my books being scorched

PROFESSOR WOOD'S

ORIENTAL SANATIVE LINIMENT.

THIS LINIMENT is not the mere creature of some old recipe, gotten up without knowledge or skill and then presented to the world as a *sovereign balm for every wound,* and a remedy for every ill to which poor humanity is subject, but the result of long and faithful study, and is only submitted after testing its wonderful medicinal virtues in thousands of cases where every other accessible remedy had failed, and hence the proprietor can say with all confidence, that no intelligent person who once sees its effects will ever be without it. It will be observed by all that this Liniment, so pregnant with medicinal virtues, is a concentration of oils and other vegetable substances, and hence when applied will not evaporate even in the smallest degree, and must penetrate to the seat of the disease, (if that be possible, being perfect nonsense to claim (as most humbugs do) that it will penetrate through out universal organized matter and enter the very bones.— But, instead of this, he will proceed to lay before the reader a plain, candid statement of facts.

1st This Liniment is a valuable auxiliary in the treatment of some of the most formidable diseases with which it is our lot to contend, for instance, Inflammation of the lungs and bowels. By a thorough and continued application of this Liniment over the region of the affected organ these otherwise formidable diseases are at once disarmed of more than half their terrors, particularly among children, and thousands of mothers, were they allowed to speak would, with all the eloquence of feeling and affection, bear their united testimony to the fact that it had snatched their children from the very jaws of death, and restored them to all their former health and beauty. Again—it will be found a powerful auxiliary in removing what is generally known as Ague Cake, or an enlargement of the spleen, indeed, in all cases where an external application is of service, this Liniment will be found useful. Again—Ringworm, Tetter, Neuralgia, swelled and stiff Joints, Contracted cords, Bruises, Sprains, Galls, Wounds, Cuts, &c, have all been cured in an incredibly short space of time, by the use of the ORIENTAL SANATIVE LINIMENT. It also cures Scrofula, King's Evil, foul Ulcers and inapplicable whereever an external remedy is required to reach the affected part. And for horses with Poll Evil, or Windgalls, Ringbones, Sweeney, Spavins, Poll Evil, Fistulas, Sprains, Galls, Bruises, Cuts, &c, the proprietor is satisfied that no remedy was ever offered to the world equal to it

St Louis March 28, 1854

This is to certify that we have for some months past used Prof. Wood's Oriental Sanative Liniment [illegible] upon our men and horses, and we have [illegible] say, that although we have used many [illegible] popular liniments of the day, this is decidedly the best we have ever used, and all who use it will more than realize their most sanguine expectations of its wonderful effects.

PATENT MEDICINES.

MEDICATED INHALATION

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr CURTIS, for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by *Medicated Inhalation* Dr CURTIS'S HYGEANA, or INHALING HYGEAN VAPOR and CHERRY SYRUP, has accomplished the most wonderful cures of Asthma and Consumption in the City of New York and vicinity for a few months past, ever known to man—It is producing an impression on all Diseases of the Lungs never before witnessed by the medical profession [See certificates in hands of Agents]

The Inhaler is worn on the breast, under the linen, without the least inconvenience, the heat of the body being sufficient to evaporate the fluid,—supplying the lungs constantly with a healing and agreeable vapor, passing into all the air cells and passages of the lungs that cannot possibly be reached by any other medicine Here is a case of

ASTHMA CURED.

BROOKLYN, N Y, Dec 20th, 1853

For about eight years I have been severely afflicted with the Asthma, for the last two years I have suffered beyond all my powers of description, months at a time I have not been able to sleep in a bed, getting what rest I could sitting in my chair My difficulty of breathing, and my sufferings, were so great at times, that for hours together my friends expected each breath would be my last During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief I at length had the good fortune to procure Dr Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffering for want of breath In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night I have since continued it with the greatest possible benefit and am now comparatively well God only knows the amount of suffering this medicine has relieved me from My advice to the suffering is,—TRY IT

CONSUMPTION CURED.

NEW YORK, Dec 27th, 1853

I came to New York in the ship Telegraph, my native place is St John, New Brunswick, when I reached this city, my health was very poor, had a very bad cough, raised a great deal of matter, which was frequently mixed with blood, had pain in my left side, and was very weak and emaciated My friends and physicians pronounced my case Consumption, and beyond the reach of medicine I accidentally heard of Dr Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup, and obtained a package which I verily believe was the means of saving my life—Soon after wearing the Inhaler, I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler I took the Cherry Syrup as directed, and continued to do so, my cough gradually growing better, until it entirely left me, and I now consider myself cured, I still wear the Inhaler, as the use of it is rather pleasant, and believing it strengthening and purifying to the lungs, I feel unwilling at present to dispense with it. DR TRIST, Graduate of the Royal College of Surgeons in London, and the recipient of diplomas from the *Lung Institution of Edinburgh,* and *Hotel Dieu* [illegible] *of Paris,* having settled permanently in New York for the practice of his profession, begs leave to suggest to the citizens of the United States that several years of study and *successful experiments* in England and Scotland as well as other parts of Europe, with *Consumption in all its forms* enable him to warrant, not only relief but a cure [illegible] to all those suffering with this great national disease

Dr. TRIST deems it unprofessional to advertise but [illegible] heralding represented themselves as the originators of the Inhalation Treatment, he would say to the public that he alone is entitled to its first introduction, and would caution all against using the useless and dangerous compounds advertised by incompetent persons

"*Take up thy bed and walk*"

Dr. TRIST would say to those interested that he has had manufactured, for the use of his patrons his "*Patent Inhaling Tube,*" through which the vapor is breathed to the parts affected, and which he earnestly recommends for the cheering results which are attended their use, and the *fact* that they may be used by the most feeble invalid without any unpleasant symptoms

To those residing out of the city, Dr Trist will forward one of the Inhaling Tubes, together with a package of the Vapor, sufficient to last for three months, accompanied with simple directions for use, on receipt of a letter containing Ten Dollars and describing symptoms

A cure is warranted in all stages of Consumption, Bronchitis, Asthma, and all other affections of the Throat, Lungs and Air Passages In case of failure, the money will be returned

To the Afflicted Everywhere,

DR. A L. ADAMS' LIVER BALSAM

COMES GREETING!

DR. A. L. ADAMS' NEW CURE FOR DISEASE is awakening the inquiry in the minds of who read it. How is it that Americans have been so long and so lavishly immured in darkness and ignorance on a subject of disease

DR. A. L. ADAMS' LIVER BALSAM.

The great Panacea of Disease is offered to the afflicted of the States and Territories for the entire cure of Liver Complaints in all stages, Bilious Fever, Ague and Fever, Chronic Lung Fever, Dropsical Affections, Coughs, Catarrh, Asthma, Jaundice, Bowel Complaints, Diarrhea, Dysentery, Rheumatism, Piles, Scrofula, Salt Rheum, Dyspepsia, General Debility, Nervousness, Costiveness, Indigestion, Female Complaints, &c

Dr A. L. Adams' Liver Balsam now sustains the highest reputation of any remedy before the public and has proved to the most skeptical, beyond a shadow of doubt that it is the only reliable medicine ever discovered (being purely vegetable) for the permanent cure of the above disease. PIANOS! PIANOS!! PIANOS!!!

ATTENTION OF PURCHASERS IS RESPECTFULLY called to a new and gigantic invention in Pianofortes now fully perfected, and before the public, known as HALL'S CELESTIAL TRIPLE STRINGED PIANO. The peculiarity of the Celestial Piano consists in its capacity for *octave playing* with the single finger, an attainment hitherto unknown to the Pianoforte. The ordinary performer is enabled by the aid of this improvement to produce effects in octave playing that would confound a Thalberg or a Liszt. One of its chief excellencies is its capacity to be used as well as an ordinary Piano of the sweetest quality of tone, and is instantly changed by the use of a common pedal to a combination so thrilling and majestic, as to captivate and charm the heart. These instruments are superior in power to two ordinary 7 octave Pianos, while for sweetness, purity, breadth, and richness of tone, they challenge the competition of the world.

This is the united testimony of Professors and Amateurs who have tested the Celestial Piano. Ordinary 1 [illegible] of all sizes, new and second hand for sale at reduced prices.

BROTHER JONATHAN COOK STOVE,

I have sold the B. J. for the past three years. It has been thoroughly tested by thousands who will testify that it is the most complete Cook Stove that can be. I have four sizes of B. J. There is a summer attachment to the stove which will make half difference less of the *amount* of fuel used in the Summer season and does away with all unnecessary heat which other stoves make that have not the attachment. The oven is much larger than any other stove of the same size furniture. I warrant the stove to give complete satisfaction, *if not, to be returned and money refunded*. I will refer you to hundreds of the citizens of Milwaukee that are using the stove.

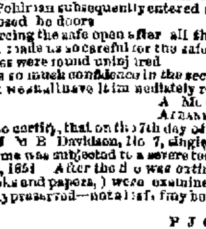
Fire King Safe, again Triumphant.



$1,000 will be paid, if reliable evidence is shown where they ever failed to preserve their contents [illegible] where as other makers' Safes have proved worthless again various accidental and experimental tests, some of which occurred recently.

Read the following from Messrs. A. McClure & Co., wholesale and extensive dealers in Drugs, Medicines, &c.

ALBANY, July 27, 1854.

This is to certify, that on the 23d day of July, 1852, our entire stock, composed of Turpentine, Alcohol, Oil, Fat and Medicines, &c., was consumed by fire, so rapid and so severe was the fire that we were unable to close one safe until Mr. Pohlman subsequently entered at the peril of his life and closed the doors.

After forcing the safe open after all this exposure and fire which made us so careful for the safety of its contents, its valuables were found uninjured.

We have so much confidence in the security of the Fire King, that we shall have it immediately replaced.

A. McCLURE & CO.

ALBANY, Dec. 10, 1853.

This is to certify, that on the 7th day of May, 1851, I purchased of J. McB. Davidson, No. 7, single flange safe, and that the same was subjected to a severe test on the 18th of December, 1851. After the fire was extinguished, its contents (books and papers,) were examined, and found to be perfectly preserved—not a leaf of my books being scorched.

P. J. CLAASSEN, Importer of Wines, Cigars, &c., Broadway, Albany.

After an examination of P. Claassen's Safe and papers, we are convinced of the superiority of Davidson's Safe over all others. FRANCIS LOW, HORACE L. EMERY, M. S. WADLEY, J. LLOYD, H. D. DOWE,

J. McB. DAVIDSON'S FIRE KING SAFE—Fire Proof, and free from Dampness.

W. A. NEFF, Agent, Chicago.

This Safe received the Highest premium—a silver medal at the Fair of the New York State Agricultural Society which was held at Albany, September 1850. Also a medal and diploma for the best burglar and fire proof safe at the same Fair held at Utica, in 1852.

Raymond, Ward & Co. will receive orders for Fire and Thief Proof Bank and Vault Doors.

This is to certify that on the 25th of September last we purchased of Messrs. Rice, Bennett & Co., one of Mr. J. McB. Davidson's Fire King (No. 4 Single Flange), that on the 14th of November past it was subjected to a very severe test in the burning of our warehouse, in which was stored a large quantity of whisky and other combustible materials. On opening the safe we found all our papers, consisting of notes, letters and receipts, perfect and entirely legible.

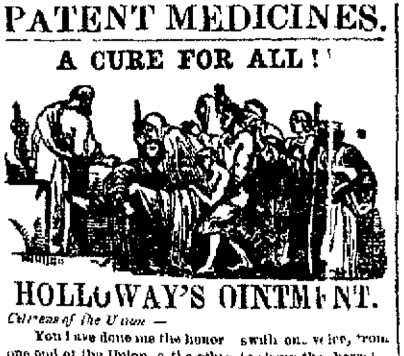
A CURE FOR ALL!



HOLLOWAY'S OINTMENT.

Citizens of the Union—

You have done me the honor with one voice, from one end of the Union to the other to stamp the character of my Ointment with your approbation. It is scarcely two years since I made it known among you, and already, it has obtained more celebrity than any other Medicine in so short a period. THOMAS HOLLOWAY,

Strand of Ann and Nassau Streets, New York.

CURE OF SORE LEGS, AFTER 9 YEARS STANDING

Mr. W. J. Langley, of Huntsville, Madison, North Carolina, suffered for nine years with one of the most painful and troublesome sore legs that ever fell to the lot of man, and after trying every medicine he had ever heard of, he resigned in despair all hope of being cured, but a friend brought him a couple of Pots of Holloway's Ointment, which caused the sores on his legs to heal and he entirely regained his health, to the astonishment of his acquaintances and friends.

CURE OF A BAD BREAST, WHEN THE PATIENT WAS AT DEATH'S DOOR.

Mr. R. DURANT, of New Orleans, addressed Professor Holloway as follows.—For [illegible] years my wife had a bad breast, with ten running wounds, (not of a cancerous nature,) I was told that nothing could save her; she was then induced to use your *Ointment* and Pills, when in the short space of three months, they effected a perfect cure, to the astonishment of all who knew us. We obtained your Medicines from Messrs Wright & Co., of Chartres st., New Orleans. I send this from "Hotel des Princes," Paris, although I had written it at New Orleans, before we finally left, not knowing your address at New York.

Nov. 9th 1853. (signed) R. DURANT.

The Pills should be used conjointly with the Ointment in most of the following cases—

Bad Legs	Contracted and	Lumbago	Sore throat
Bad Breasts	Stiff Joints	Piles	Skin diseases
Burns	Bruises	Rheumatism	Scurvy
Bunions	Gout	Salt Rheum	Sore heads
Chilblains	Gland Swellings	Scalds	Ulcers
Chapped hands	swellings	Sore nipples	Wounds

Sold at the establishment of Professor HOLLOWAY, 38, Corner of Ann and Nassau Streets, New York, also by all respectable Druggists and Dealers in Medicines throughout the United States, in Pots, at 37½ cents, 87 cents, and $1 50 cents each. To be had Wholesale of the principal Drug Houses in the Union.

There is a considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each Pot.

PROFESSOR WOOD'S

ORIENTAL SANATIVE LINIMENT.

THIS LINIMENT is not the mere creature of some old receipt, gotten up without knowledge or skill and then presented to the world as a *sovereign balm for every wound*, and a cordial for every ill to which poor humanity is subject, but it is the result of long and faithful study, and is only submitted after testing its wonderful medicinal virtue in thousands of cases where every other ancestral remedy had failed, and I am the proprietor can say with all confidence, that no intelligent person who once sees its effects will ever be without it. It will be observed by all that this Liniment, so pregnant with medicinal virtues, is a concentration of oils and other vegetable substances, and hence when applied will not evaporate even in the smallest degree, and *must* penetrate to the seat of the disease, if that be possible, being perfect nonsense to claim (as most humbugs do) that it will penetrate through out universal organized matter and enter the very bones.—But, instead of this, he will proceed to lay before the reader a plain, candid statement of facts.

1st. This Liniment is a valuable auxiliary in the treatment of some of the most *formidable* diseases with which it is ours to contend, for instance, Inflammation of the lungs and bowels. By a thorough and continued application of this Liniment over the region of the affected organ these otherwise formidable diseases are at once disarmed of more than half their terrors, particularly among children, and thousands of mothers, were they allowed to speak would, with all the eloquence of *feeling and affection*, bear their united testimony to the fact that it had snatched their children from the very jaws of death, and restored them to all their former health and beauty. Again—it will be found a powerful auxiliary in removing what is generally known as Ague Cake, or an enlargement of the spleen, indeed, in all cases where an external application is of service, this Liniment will be found useful. Again—Ringworm, Tetter, Neuralgia, swelled and stiff Joints, Contracted cords, Bruises, Sprains, Galls, Wounds, Cuts, &c., have all been cured *in an incredibly short space* of time, by the use of the ORIENTAL SANATIVE LINIMENT. It also cures Scrofula, King's Evil, foul Ulcers and is applicable wherever an external remedy is required to reach the affected part. And for horses no Leaflet, or Windgalls, Ringbones, Sweeney, Spavins, Pole Evil, Fistulas, Sprains, Galls, Bruises, Cuts, &c., the proprietor is satisfied that nothing was ever offered to the world equal to it.

St. Louis, March 28, 1854.

This is to certify that we have for some months past used Pro. Wood's Oriental Sanative Liniment, both upon our men and horses, and we have found it [illegible] ing, hat, although we have tried many, [illegible] popular liniments of the day, [illegible] the best we have ever used, and all who use it will more than realize their most sanguine expectations of the worth of it. MEDICATED INHALATION

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr. CURTIS, for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by *Medicated Inhalation*. Dr. CURTIS'S HYGEANA, or INHALING HYGEAN VAPOR and CHERRY SYRUP, have accomplished the most wonderful cures of Asthma and Consumption in the City of New York and vicinity for a few months past, ever known to man—It is producing an impression on Diseases of the Lungs never before witnessed by the medical profession. [See certificates in hands of Agents.]

The Inhaler is worn on the breast, under the linen, without the least inconvenience, the heat of the body being sufficient to evaporate the fluid,—supplying the lungs constantly with a healing and agreeable vapor, passing into all the air cells and passages of the lungs that cannot possibly be reached by any other medicine. Here is a case of

ASTHMA CURED.

BROOKLYN, N. Y., Dec. 26th, 1853.

For about eight years I have been severely afflicted with the Asthma, for the last two years I have suffered beyond all my powers of description, months at a time I have not been able to sleep in a bed, getting what rest I could sitting in my chair. My difficulty of breathing, and my sufferings, were so great at times, that for hours together my friends expected each hour would be my last. During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr. Curtis' Hygeana or Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffering for want of breath. In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoonful of the Cherry syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have since continued it with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is,—TRY IT.

CONSUMPTION CURED.

NEW YORK, Dec. 27th, 1853.

I came to New York in the ship Telegraph, my native place is St. John, New Brunswick, when I reached this city, my health was very poor, had a very bad cough, raised a great deal of matter, which was frequently mixed with blood, had pain in my left side, and was very weak and emaciated. My friends and physician pronounced my case Consumption, and beyond the reach of medicine. I accidentally heard of Dr. Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup, and obtained a package which I verily believe was the means of saving my life—Soon after wearing the Inhaler, I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler. I took the *Cherry Syrup* as directed, and continued to do so, my cough gradually growing better, until it entirely left me, and I now consider myself cured. I still wear the Inhaler, as the use of it is rather pleasant, and believing it strengthening and purifying to the lungs, I feel unwilling at present to dispense with it. JOHN WOOD.

Sold by BOYD & PAUL, No. 40 Cortlandt street, C. H. RING, corner of John street and Broadway, N. Y. Price $3 a package.

N. B.—Any person inclosing $3 to BOYD & PAUL, or CURTIS & PERKINS, New York, will receive a package containing a bottle of Hygean Vapor, one of Cherry Syrup, and an Inhaler, in a neat box, by express, free to any part of the United States; or four packages for $10.

DR. E. N. TRIST,

WITH HIS CELEBRATED

HYGEN & OXYGENIC VAPOR

DR. TRIST, Graduate of the Royal College of Surgeons in London, and the recipient of diplomas from the *Lung Institute of Edinburgh*, and *Hotel de [illegible] of Paris*, having settled permanently in New York for the practice of his profession, begs leave to suggest to the claims of the United States that several years of study and successful experiments in England and Scotland as well as other parts of Europe, with *Consumption in all its forms* enable him to warrant, not only relief, but a *complete cure* to all those suffering with this great national disease.

Dr. TRIST deems it unprofessional to advertise, but a horde having represented themselves as the only successors of the Inhalation Treatment, he would say to the afflicted that he alone is entitled to its first introduction, and would caution all against using the useless and dangerous compounds advertised by incompetent persons.

"Take up thy bed and walk."

Dr. TRIST would say to those interested how he has had manufactured, for the use of his patrons his "*Patent Inhaling Tube*," through which the vapor is conveyed to the parts affected, and which he earnestly recommends for the cheering results which have attended their use and the *fact* that they may be used by the most feeble invalid without any unpleasant symptoms.

To those residing out of the city, Dr. Trist will forward one of his Inhaling Tubes, together with a package of the Vapor, sufficient to last for three months, accompanied with ample directions for use, on receipt of a letter containing Ten Dollars and describing symptoms.

A cure is warranted in all stages of Consumption, Bronchitis, Asthma, and all other affections of the Throat, Lungs and Air Passages. In case of failure, the money will be returned.

Address (post paid) DR. E. N. TRIST, [illegible] and [illegible], New York City.
